Diovandi Basheera Putra

Mechatronics Engineer and AI Solutions Builder | Applied AI for Engineering, Automation and Digital Operations

Doha, Qatar | South Tangerang, Indonesia | Available from November 2026
Email: dio@diovandi.com | LinkedIn: linkedin.com/in/diovandi | Website: diovandi.com

PROFILE

Mechatronics engineer who builds applied AI for engineering documents and data: extraction pipelines, cited search and document control, with a person reviewing every record that matters. German-Indonesian double degree (S.T., Swiss German University; BEng, FH Südwestfalen) and experience in Qatar, the Netherlands, Germany and Indonesia. At Stratcon Agara Global I led compliance and document-control tools now in internal use, organised company document governance and reported to leadership. The engineering underneath is hands-on: PLC and control systems, mechanical design and robotics. Open to applied AI, digital engineering and automation roles.

CORE SKILLS

Projects and operations: process mapping, document control and compliance tracking, requirement checklists, feasibility and cost analysis, stakeholder and sponsor management

Communication: executive briefings, technical writing and manuals, training and mentoring, website, SEO and UX audits, PR and crowdfunding campaigns

Digital tools: Google Workspace administration, AppSheet, Apps Script, AI tools (Gemini, Claude), Python, SQL

Engineering: PLC and control systems, CAD (Fusion 360, SOLIDWORKS, CATIA), electrical safety, workshop practice

WORK EXPERIENCE

STRATEGIC TECHNICAL ADVISOR | Stratcon Agara Global (SAG) | Remote/Hybrid, Indonesia **08/2026 - 10/2026**

- **Led** a document-control system for the firm's compliance projects covering approvals, revisions and readiness tracking, so teams can see which documents are ready for submission; now in internal use.
- **Led** an AI-assisted checklist-compliance tool for import/export and AMDAL (environmental permit) requirements, now in internal use.
- **Contributed** improvements to the office procurement and budget app, including monthly budget allocations and a bilingual English/Indonesian interface.
- **Created** company branding and meeting-minutes templates in Claude and a 1,559–item map of company documents.

PRACTICAL INDUSTRIAL TRAINEE | Politeknik Industri ATMI | Cikarang, Indonesia **05/2026 - 07/2026**

- **Built** electrical control panels and **completed** electrical safety training, plus welding, machining and assembly.

CORPORATE DEVELOPMENT INTERN | Stratcon Agara Global (SAG) | South Tangerang, Indonesia **01/2026 - 03/2026**

- **Standardised** Google Drive governance across the Core, Legal, Finance and Admin teams using Groups and Shared Drives.
- **Delivered** a 67–page technical, SEO and UX audit of the company website and briefed the web contractor on priorities.
- **Automated** meeting transcription and summaries, producing action items assigned to each speaker.
- **Built** a permit-data extraction workflow with human verification, and **designed** a WhatsApp document assistant (presented to company leadership).

MECHATRONICS TEACHING ASSISTANT | Swiss German University | Tangerang, Indonesia **09/2025 - 09/2026**

- **Ran** mechatronics lab sessions with safety procedures, **assessed** reports against rubrics, **prepared** manuals and **mentored** students.

MECHANICAL ENGINEERING INTERN | Deutscher Akkuservice / EproSafe | Münster, Germany **07/2025 - 08/2025**

- **Reworked** battery enclosure mechanisms in CAD and **proposed** a shared front-plate design to reduce product variants.

PARTNERSHIPS AND PROGRAM MANAGER INTERN | Antarexxa Space Global | Remote, Indonesia **04/2024 - 07/2024**

- **Mentored** the Bamantara EEPISAT student team on CanSat 2024 requirements and **supported** an amateur-rocketry roadmap and K-12 space education planning.

COMMISSIONER OF EXTERNAL RELATIONS | Delft Aerospace Rocket Engineering | Delft, Netherlands **10/2022 - 09/2023**

- **Directed** external communications, sponsor and university relations, the website and webshop for a 200+ member student rocket society.
- **Conducted** feasibility and financial analysis for the society's CanSat Luxembourg launch-provider bid.

STRATOS IV PR AND LIVESTREAM MANAGER | Delft Aerospace Rocket Engineering | Delft, Netherlands **03/2021 - 09/2022**

- **Ran** the Stratos IV crowdfunding PR campaign (Canva templates, contributor guide, post scheduling), raising EUR 15,625 from 193 donations (130% of goal), and **delivered** sponsor PR obligations.

- **Designed, tested and deployed** the livestream setup over the INTA CEDEA range network (Moguer, Spain) for the 2021 launch campaign.

SELECTED PROJECTS

- **Bachelor's thesis (grade 93/100):** built a software tool that rates how well a mechanical assembly is designed, working directly inside Fusion 360 CAD. Journal manuscript with co-authors in preparation.
- **Domestic mobile robot:** autonomous navigation and mapping for a home robot in ROS 2 simulation.

EDUCATION

S.T. MECHANICAL ENGINEERING (MECHATRONICS) | Swiss German University | Tangerang, Indonesia **08/2023 - 09/2026**
Final GPA 3.29/4.00. Thesis: Implementation of Mechanical Assembly Rating Tool Based on Kinematic Screw Theory (grade 93/100).

BENG INDUSTRIAL ENGINEERING | Fachhochschule Südwestfalen | Soest, Germany **02/2025 - 07/2025**
Final grade 1.7 (German scale, 1.0 = best). Double-degree programme with Swiss German University; degree awarded 06/2026.

BSC AEROSPACE ENGINEERING (COURSEWORK) | Delft University of Technology | Delft, Netherlands **08/2019 - 07/2023**
Not completed; credits transferred to Swiss German University.

GCE INTERNATIONAL ADVANCED LEVEL | Qatar International School | Doha, Qatar **08/2017 - 06/2019**
AAB in Chemistry, Mathematics and Physics. Head Boy.

CERTIFICATION, LANGUAGES AND AWARDS

Certification: Siemens Mechatronic Systems Certification Program (SMSCP) Assistant, Siemens SITRAIN, 11/2025 (electrical, mechanical and drives, pneumatics and hydraulics, digital and PLCs)
Languages: English and Indonesian (native); German A2–B1; Dutch A1; Arabic (elementary)
Awards: 2nd place, EBEC Challenge Delft 2023 (case study category)
